

This figure is a detailed map of Trutnov, Czech Republic, illustrating the results of a parking space analysis. The map shows the city's layout, including streets, building footprints, and green spaces. Parking spaces are identified and numbered throughout the city, with a total of 8,900 spaces. The map is color-coded to show different types of parking spaces and building footprints. A legend in the bottom left corner explains the symbols used. The map is titled 'TRUTNOV - KRYBLICE' in large red letters at the top left. The legend includes symbols for building footprints, parking spaces, and various types of roads. The map also shows the city's boundaries and surrounding areas. The map is a technical drawing, likely created using GIS software, and is intended for use in urban planning and transportation studies.
